A sim who is an athlete can go to the gym, one who is a musician can go for an audition or even receive field work for engineers. Heights: The height mod lets you to spawn Sims of different stature and also alter how tall they are.. Sims 4 Better Autonomy Mod: MC Command Center. This is one of my best mod, it lets you to play around virtually with your sims' lives which gives you control over them and also others in their world.. 2 Custom food interactions: This mod is good if you want more culinary creativity, the Custom Food.. Not necessarily worse – just not the same

Become a Sorcerer: Do you ever miss the magic of previous Sims games? The become a Sorcerer mod adds a hearty serving of the supernatural, it lets your Sims sling magic spells which can either suck the sadness out of a friend or take down an enemy with a bolt of lightning or fire balls.. 1 Mortician: I've added the mortician career mod amongst the best career mods in the Sims 4 because it's so unique and probably unthinkable to become a mortician in such a fun game.. It always varies a lot in the background (as you can read over the exhaustive list of description in the mod page) but the best thing so far about this is that it tries as much as possible to eliminate all the idle conversations in the sims' game.. There are also other pregnancy mods you can download like the artulwww's Pregnancy Mega Mod, which lets you do things like give birth to twins, quintuplets as many as possible.

Emotional Inertia: The Sims game has a lot of emotional bunch, in fact their moods flip within seconds like a light switch.. Replacement paintings: If your sim is an artist and have done up to five paintings a day or in a week, the same images start coming up over and over again.. New Traits!: There are a lot of trait slots that have been provided by modders for our sim families, this mod is available and important if you really want to go along with these additional trait slots that your sim can now hold.

There's no reason why a virtual human wouldn't love this career, though! And with this mod you can have your sim work the life of a retail salesperson by working their people skills to net profits for the store.. The mod comes with lots of automatic settings that are geared towards letting Sims that you don't control live full lives without you, get married and have babies, the mod also allows you to adjust some settings in the game so your Sims don't spend half of the day to shower and have breakfast.

One thing to try out if you feel you want to change the game even more is to explore the Create a Sim 'custom gender settings' found in the base game.. Custom food interactions: This mod is good if you want more culinary creativity, the Custom Food Interactions mod is the only recommended place you could start.. This particular mod become a point of contention for most gamers since the game becomes much more easier if you have a job that pays you so well.. Be the hot and ever attractive sim? Then try the attractive trait mod or the optimist/cynic and also catch some paranoia or be socially awkward then still try out the New Traits mod, it is crazy, there is even this one among the traits that allows you to add 100 new traits all in one.. However not many people get into it because you need to have a lot of programming knowledge if you wish to succeed. e10c415e6f
