```

1. [windows convert to base64](#)

5*5=25, and it repeats forever :P, sort of like 1/3 does in base 10 3 in base 5 = 0.. 48*5=24, repeat the operation until you have done the same number of multiplications as the divisions you previously performed, second digit is 20.. 0 24*5=12, next digit is 1, 111 10 2*5=1, next digit is 1, 111 110 3 converted to base 50.. 4*5=20 third digit is 2 then, multiply by 5 repeatedly, and add each digit to the fraction part until you get zero or you notice a repeating pattern.
